

Hunt Comfort Introduces Climb-Lite Elite

Hunt Comfort, in celebration of its 12th anniversary, introduces Climb-Lite Elite, the first of a series of special-edition products. The Elite upgrade to the Climb-Lite is the first cushion to feature Hunt Comfort's new ultra-soft and super-strong Omni-Stretch Comfort-Tex fabric. This waterproof, Teflon DWR finished seating fabric, stretches and conforms to your body providing you with a superior comfort unlike anything else you've ever experienced. The Climb-Lite Elite is also the first Hunt Comfort product incorporating a ToughTek bottom for extra slip-resistant durability.

The Climb-Lite Elite sports the same L-Core cushioning found in its predecessor. Providing super plush softness with the benefit of outstanding seating support, the L-Core holds its form without flattening out or taking on body impressions providing you with years of reliable hunting comfort.

Climb-Lite Elite cushions are available for \$38.95. Hunters wanting a quick-release system for stands can purchase the Hunt Comfort Do-Lolly's side-release belt sets for \$7.95.

All Hunt Comfort products are proudly made in the USA and are backed with a three-year warranty. All special-edition Hunt Comfort products are being built with high definition Mossy Oak Break-Up® camo.
