

FatBoy

The best way to discover how the Hunt Comfort FatBoy works is to go hunting with the cushion for a long day. The photograph below is what you have working for you on the inside of a FatBoy.

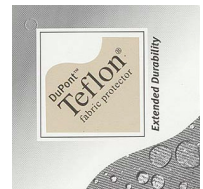

1 Inch IntelliGel Contact Layer. Excellent Pressure Relief.

Mid Layer Cushioning & Support. Antimicrobial.

Foundation Layer. Medical Grade Foam. Antimicrobial.

On the Outside you see Mossy Oak Brand Camouflage and what you feel is Hunt Comfort's exclusive Comfort-TEX fabric built to fit your sit. The characteristics of this fabric: Stretch Comfort - the fabric gives into the cushion and reduces shear forces on the skin, Waterproof and Breathable, Quiet, Durable and a Teflon DWR finish.
