

Shot Show 208 Media Day Hunt Comfort Field Test

On February 1, 2008 Hunt Comfort setup a live test with writers and media personalities at the Shot Show. These are the "sit test" results of 10 well known to the hunting community. **Sitting on an off the shelf hunting cushion jumped average seated pressure up 96% over a FatBoy on average. The FatBoy also excelled at increasing the distribution of seated pressure 70% on average over the off the shelf cushion. Translated - FatBoy's what you want "All Day Hunting".**

Average Seated Pressure
